**Type:** Metal | Roof

OBERFLÄCHE P.10

PREFA Dachplatten zählen mit nur 2,3 kg/m<sup>2</sup> zu den widerstandsfähigsten Dachmaterialien überhaupt. Mit den kleinformigen Aluminium-Platten lassen sich auch intakte ältere Dachstühle kostengünstig und mühelos sanieren. Vier Dachplatten reichen, um einen ganzen Quadratmeter Dachfläche einzudecken.

#### IMPORTANT LEGAL INFORMATION FOR USAGE OF THE MTEXTUR-DATABASE AND MTEXTUR DATASHEET:

In the mtextur-database and the mtextur-datasheet you can find a variety of high-quality digitalized materials, classified according material-type and subtype, color scope, field of application, manufacturer and product-line. The liability of the colors and the pattern of a CAD-texture can not always be guaranteed. For binding samples and additional questions please get in contact with the manufacturer or reseller directly (request link on material page). The information found on the mtextur-database is carefully collected and tested. Nevertheless are there possibilities for mistakes or wrong information. The publisher, h2c GmbH, the according manufacturers and resellers are not liable for any missing or incorrect information and its outcome, except h2c GmbH acts insofar willful.

| Weight               | 2.3 kg/m <sup>2</sup>                                                                                                                                                                                                                                                                                                                                                                                      |
| Characteristics Info | Die PREFA Dachplatte ist der beliebte und bewährte Klassiker für traditionelle wie auch moderne Bauprojekte. Dank des patentierten Falz- und Befestigungssystems der PREFA Dachplatte widerstehen die Dächer hohen Windgeschwindigkeiten. Der intensive Einsatz, gerade auch im alpinen Bereich, liefert seit jeher wertvolle Erfahrung. Legierung nach EN 1396   Beschichtung nach Coil-Coating-Verfahren |
